NEW!

Introducing "Celebrate Theory"

The Royal Conservatory presents *Celebrate Theory*[®] — a new series that supports the study of music theory at every stage of a student's musical development.

- ▶ Direct correlation to the corresponding level of practical study for The Royal Conservatory Certificate Program
- ▶ An interactive approach to the study of music theory
- ▶ Guided listening activities are integrated in every book, beginning at Level 1
- ▶ Creativity is developed through melody writing
- ▶ Application of theory concepts through the exploration of repertoire
- ▶ Serves as the official resource for the *Theory Syllabus, 2016 Edition*

****Note: The 2016 Theory Syllabus goes into effect on Sept 1/2016!****

The Preparatory to Grade 8 books will be available this August, with the Grade 9 and 10 books due sometime in December. The History books will also be updated at this time. For those of you using the books by Sarnecki, Vandendool or Wharram, they will still be available, but will **NOT** be updated to match the new Syllabus.

Concerning the new Theory requirements, here is a quote from the RCM: There will be a one-year crossover period from September 1/ 2016 to August 31/ 2017.

Theory Examinations written in the Winter, Spring and Summer sessions will include alternate questions to accommodate students who have prepared using either the 2009 or 2016 Syllabus. Counterpoint examinations will only be offered in the Winter (Dec 2016) session, and then eliminated.
